

AC 45...60 Hz power supply range of network voltages, V	90...260
Network frequency, Hz	50/60
Number of RS485 interfaces	1
Number of RS232 interfaces	1
Open circuit voltage of interface „20 mA current loop", V	12...15
Circuit current of interface „20 mA current loop", mA	18...22
PC-controller net baud rate via RS232 interface, 8N1 bytes	4800 baud
Maximum controller`s, connected to a current loop input (passive) interface, current loop`s voltage (must be connected through a surge protection of current loop), V	27
Number of meters, connected to 20 mA current loop interface	1...3
Number of meters connected to RS485 interface	1...32
Power consumption, W: - maximum in transmission mode - average in duty mode	< 2,5 < 1,2
Operation temperature	-30...+50 °C
Dimensions (without antene), mm	68 x 93 x 37
Relative humidity, %	5...95
