

12V 20A Battery charger (TYC-12V-20A)

Features:

* Fully Automatic Charging	* Reverse Polarity Protection
* Switch Mode Technology	* Short Circuit Protection
* 3-Stage Charging System	* Over Temperature Protection
▶ 1st Stage: Bulk	* Battery Type Selector
▶ 2nd Stage: Absorption	* Led Visual Display
▶ 3rd Stage: Float	* High Efficiency
* Temperature Controlled Variable Speed Fan	

Specifications:

DC Input voltage	12V
Rated Charge Current	20A
Absorption Charge Voltage(DC)	14.5~14.8 V
Float Charge Voltage (DC)	13.5V~13.8 V
Input Voltage (AC)	185~265 V
Frequency	47~63 HZ

Packing Details:

Inner box Dimension (CM)	23*15*5.2
Unit Weight	2.5KGS
Carton Dimension (CM)	45*31*35
Carton Weight	10.5KGS
PCS/CTN	5PCS
